A summary of Spirituality

WHAT ARE WE?

2:1 Transhumanism

That humans will improve themselves with the use of technology

2:2 Naturalism

There is no inherent purpose of humanity

2:3 Pantheism

Because pantheists believe a diety is everything, this means by extension that humans are a part of that diety

2:4 The soul

The immortal essence of living (and sometimes not living) things

2:5 Reincarnation (Read “The soul”)

The belief that when a body dies its soul can start a new life with a new body (or in some belief systems the same body)

2:6 Determinism

(Read existentialism for a contrasted belief) The belief that (in general) free will does not exist

2:7 Nihilism

The belief that nothing exists and by extension the self does not exist

2:8 Solipsism

The belief that the self is all that exists, or all that can be known exists

2:9 Existentialism

(Read Determinism for a contrasted belief) The belief in free will
